PROFILE

Motion designer and video editor with 15 years of experience delivering high-impact visuals across brand, broadcast, digital, live events, and gaming. Equally at home defining motion systems and visual language for new projects as creating graphics for broadcast and editing narrative content, with particular strength in translating complex or data-rich subjects into clear, emotionally resonant visuals. Experienced collaborator across creative, marketing, post-production, and development teams.

2D Artist / Motion Designer / Video Editor

Krafton (PUBG Studios) Amsterdam, Netherlands · Dec 2020 – Jul 2025 · Staff

- Worked across AAA and indie tactical shooters including *PUBG*, *Thunder Tier One*, and *Black Budget*, with roles spanning motion design, video production, visual storytelling, and promotional content.
- **PUBG:** Produced game trailers (game capture, editing, motion graphics), podcasts, eSports roadmaps, CTAs, and explainer videos for global social channels, working within brand guidelines to deliver localised content across multiple regions.
- **Thunder Tier One:** Co-developed in-game static assets and video content that established the visual tone and narrative for campaign missions.
- **Black Budget:** Supported visual development for this new IP — creating mood reels and video pitches with the Creative Director to secure project commissioning and establish the visual universe for the team. Collaborated with the narrative team and concept artists to develop 2D art for world-building, storyboarded UI/UX and gameplay sequences to assist developers, and planned narrative video sequences remotely with the Seoul-based creative team.
